# ETHICAL SOURCING

---

“Ethical sourcing is the process of ensuring the products being sourced are obtained in a responsible and sustainable way, that the workers involved in making them are safe and treated fairly and that environmental and social impacts are taken into consideration during the sourcing process.”

In Leather Hides ETHICAL SOURCING can be interpreted as being a By Product of the Meat Industry, the Meat Industry which is operating in a developed Nation, the Nation which is enforcing & implementing the Global Animal & Husbandry Laws.

The above interpretation is simple in words but encompasses a lot of steps that have to be controlled & monitored.

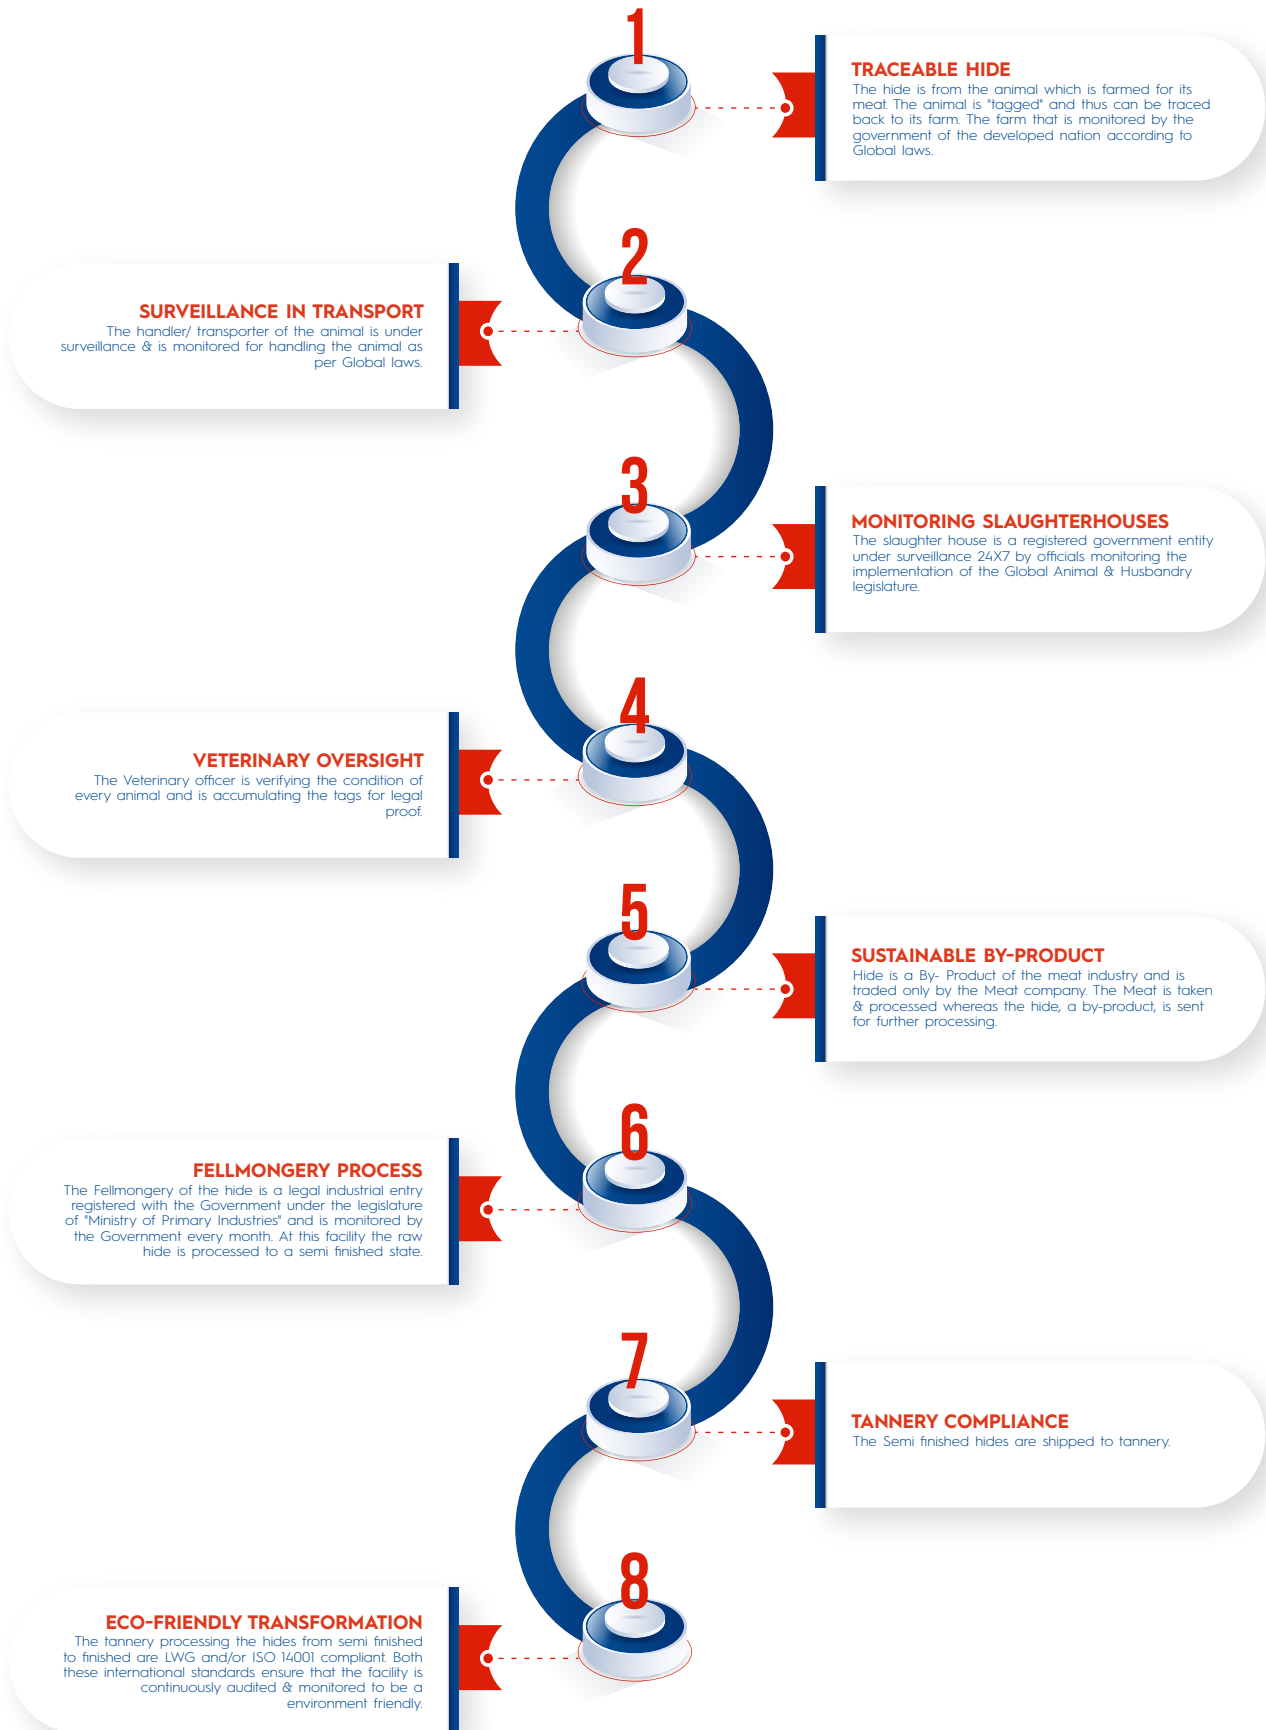

## Simran's Role in Ethical sourcing

Simran only deals with Meat processors who are legal entities and provide all the required documents to prove “Ethical Sourcing”. These documents include Certificate of Origin (COO), Ministry of Primary Industries (MPI) registration, Certificate of Hides & Skins exported to India. All these documents have a huge relevance and are almost like “passports” proving the identity of the material.

# THE PROCESS

# Relevance of the documents

- 1. MPI registration of the Tannery** - This registration certificate proves that the tannery is registered with the Government body "Ministry of Primary Industries" whose sole purpose is to ensure that the Animal & Husbandry Laws are enforced and followed.
- 2. Certificate of Origin** - This is issued only to MPI registered members who are following the Animal & Husbandry Legislatures. This certificate proves that all animals have been slaughtered in the slaughter house and the "Tags" have been collected by the Veterinary officer and deposited with the Government. This tags are proof that the animal slaughtered is farmed, traceable, and slaughtered for its Meat in the registered slaughter house.
- 3. Certificate of Hides & Skins of Origin country exported to India** - This certificate ensures that the skins are of country of Origin, are free from any illegal activities and free from any infection etc
